Re: MMC Materials, Inc. Piperton Plant
273 SR 196
National Pollutant Discharge Elimination System (NPDES) Permit Number TNG110411
Piperton, Fayette County, Tennessee

Dear Mr. Craft:

On Tuesday, September 1, 2015, personnel with the Tennessee Department of Environment and Conservation (TDEC) Division of Water Resources (DWR), Memphis Environmental Field Office (MEFO), conducted a Compliance Evaluation Inspection (CEI) at the above-referenced site located at 273 SR 196. Upon arrival at the facility, DWR personnel met with Mr. Byron Wegmann of your company and stated that the purpose of the inspection was to evaluate the facility's compliance with its NPDES permit. This was accomplished by reviewing the facility's self-monitoring records and reports, and conducting a walk-through inspection of the site.

Overall, the inspection revealed the site to be in compliance with the terms and conditions of the NPDES permit. Attached you will find a copy of the Compliance Inspection Report, which summarizes the findings of the inspection. If you have any questions, please feel free to contact me at (901) 371-3028 or Mrs. Maylynne Wilbert at (901) 371-3024.

Sincerely,

A handwritten signature in blue ink, which appears to read "Cliff Caudle", is positioned below the "Sincerely," text.

Cliff Caudle
Environmental Scientist
